There have been many changes over the past few months in Region 9. With the VERA/VISP retirements we lost a great many excellent staff. These changes also afford us the opportunity to broaden and enhance your skills and work experience. The following staffing strategies will be used to fill our critical vacancies in the coming months .

#### **Lateral Reassignments**

We will shortly be advertising 22 permanent lateral reassignment opportunities available to the region , as reflected in the list below. All new assignment opportunities will be posted in the **JOBS** section of the Weekly Vacancy Announcement . Each position will be briefly described and the management contact information will be provided . Open Houses will be held by participating Divisions , as indicated in the JOBS announcement . We encourage you to attend to learn more about these exciting opportunities .

If you are interested, please express interest per JOBS procedures to **Andrea Lee, of the HR Office, by 12:00 pm PST on Friday, March 1.** Resumes are required (three page max), and a cover letter should clearly and succinctly explain your interest in a particular position. To learn more about how to prepare or update your resume , come to one of HR and OCR's Resume Writing workshops scheduled for February 25, 1:00-2:30 (CA/AZ Rooms), and February 28, 10:00-11:30 (Marianas/Palau Rooms). Bring your draft or existing resume .

#### **Internal Merit Promotion Opportunities**

Now and in the coming weeks, several management positions are being advertised in USA Jobs (Enforcement, Air, Superfund, and Waste). Applicants are encouraged to attend the Open Houses to learn more about the positions , and must apply for Merit Promotion opportunities through USA Jobs .

#### **External Recruitment Opportunities**

If our budget allows, we hope to advertise a number of external opportunities targeted at the entry level (GS- 5/7/9). Positions will be determined after completion of the internal recruitment processes mentioned above , and may be affected by further developments in our national and regional budgets .

I encourage you to consider applying to one or more advertised opportunities . If you have any questions, please contact your Division Director or the HR Office at (415) 972-1817.

### **FY13 REGION 9 LATERAL REASSIGNMENT OPPORTUNITIES**

*When seeking qualified volunteers for lateral reassignment opportunities , merit promotion competition procedures do not apply. Management will consider a number of factors in making placement decisions , including employee knowledge, skills, and abilities balanced with agency needs , organizational workload, and mission-critical responsibilities and deadlines. If you are doing critical work supporting mandatory agency actions that require you to remain in your current position, it may be necessary to reassess your ability to transition to a new assignment after your critical agency work is completed.*
